

MIT Course 15.393 Nuts and Bolts of New Ventures

Steve Derezinski steve.derezinski@alum.mit.edu

Steve has over 15 years experience as an entrepreneur, Senior Executive and Senior Advisor for technologybased ventures. Most recently, Steve worked with Professors at Georgia Tech to create 8 early-stage ventures from breakthrough research. These companies raised a total of \$43M in series-A financing. Steve has been senior executive in venture-backed software and semiconductor companies, working in strategic marketing roles to place breakthrough semiconductor, MEMS, Nanotechnology and software innovations into the right early market segments.

Steve is also active in the entrepreneurial community, helping to found an MIT Enterprise Forum Chapter and mentoring student teams for Business Plan competitions. He is a past-President of the MIT Alumni Club of Atlanta, and has served on MIT's National Alumni Association Board of Directors. Steve continues to review grant proposals for National Science Foundation and the University of Massachusetts.

Steve holds a BS degree in Mechanical Engineering from MIT and an MBA from MIT Sloan School of Management, where his research focused on university-based startups.
