

MIT Course 15.393
Nuts and Bolts of New Ventures

Don Shobrys

Don Shobrys is the Director of the MIT Venture Mentoring Service, which provides teams of mentors for MIT related ventures, along with other services. Don has worked with over 200 ventures during his time with VMS, and as a past I-Corps instructor.

His career centered on helping companies make decisions more rapidly and effectively, with a particular focus on managing the supply chain of manufacturing companies. He started his career at Exxon. He later became a co founder of Chesapeake Decision Sciences, helped it become a pioneer in supply chain decision support, worked with over 100 Fortune 1000 companies, and ran operations prior to its sale.

He has engineering degrees from MIT and Northwestern and a PhD in Operations Research from Johns Hopkins. He has been an active volunteer throughout MIT, including serving as President of the Alumni Association and on the MIT Corporation. He is the recipient of the Henry B. Kane '24 Award; two Great Dome Awards; the Marshall B. Dalton Award; and the Bronze Beaver, which is the highest honor that the MIT Alumni Association can bestow.
